MAIN CORPORATE CLIENTS
Dublin Port Tunnel (DPT), Q-Park Ireland, Quick-Park

PROJECT COMPANY
EasyTrip owned by Egis Projects & ElectroAutomation

FIRST EUROPEAN ELECTRONIC TOLL SERVICES PROVIDER (EETS) in Ireland
EasyTrip is the first independent tag service provider in Ireland

SCHEDULE
Creation of the company: February 2006

Start of Operation: November 2006

■ PROJECT DESCRIPTION

EasyTrip Services Ireland offers outsourced services for Electronic Toll and Fee Collection Account Management to car park owners and toll road concessionaires in Ireland.

EasyTrip offers to its private and business clients a full range of road services: tolling, car park payments and fleet management (through a partnership with market leader CELTRAK).

EasyTrip is managing the tag distribution and customer relationship for the Dublin Port Tunnel in addition to its own customers. EasyTrip is developing, implementing and maintaining its own electronic fee collection solutions for Irish car park operators.

EasyTrip tag customers can access all toll roads and a growing number of car parks in the country with a single electronic tag.

■ ROLE OF EGIS PROJECTS

Design and supply of the IT systems on a turnkey basis.

Expertise in Electronic Tolling and Fee Collection for the design & development of new tag services, parking services, access control and for the distribution of tags and customer relationship management.

Continuous support to the EasyTrip management in the field of marketing, system upgrade design, business planning, finance & business development.
